I AM THE NCR RealPOS™ XR4

Flexibility and efficient performance at a value price

Setting a new standard in style and flexibility

The NCR RealPOS XR4 is our newest modular POS terminal offering unique front access cable connections to simplify installation and services. The XR4's features a new low profile, compact design which conserves valuable space. NCR also offers you the flexibility to mount the XR4 on a wall or underneath a counter to create unique, space saving solutions for your checkout. Pair it with our extensive family of displays, scanners and other retail peripherals to create a customized solution for your stores that promotes a very modern appearance.

Performance and energy efficiency

XR4 features an energy-efficient Intel® Celeron® processor allowing fan-less operation and when combined with a solid state drive option, there are no moving parts to maximize reliability. Seven USB ports, a cash drawer port, and a serial port will give you plenty of connectivity to get the job done.

The XR4, like all of our X-series terminals, offers high reliability and includes an on-board image recovery button to quickly restore your POS software image should a corruption occur. NCR's Command Center support software is also available for remote diagnostics and repair giving your further peace of mind.
